

“enabling the Connected Home”

makes life better
portus

executive summary]

Portus is winner of the iDA Connected Homes Programme

In the age of the digital home, networking both traditional and new services delivers compelling benefits to users

Portus offers a complete solution for delivery of services to the Connected Home (and office!)

The DIAS replaces separate systems with a single device that supports all your services needs

portus makes life better

the DIAS]

Provides a standards-based (OSGI) open services platform

All user operation via advanced web-enabled interface

Requires no new wires

Integrated Broadband ADSL modem

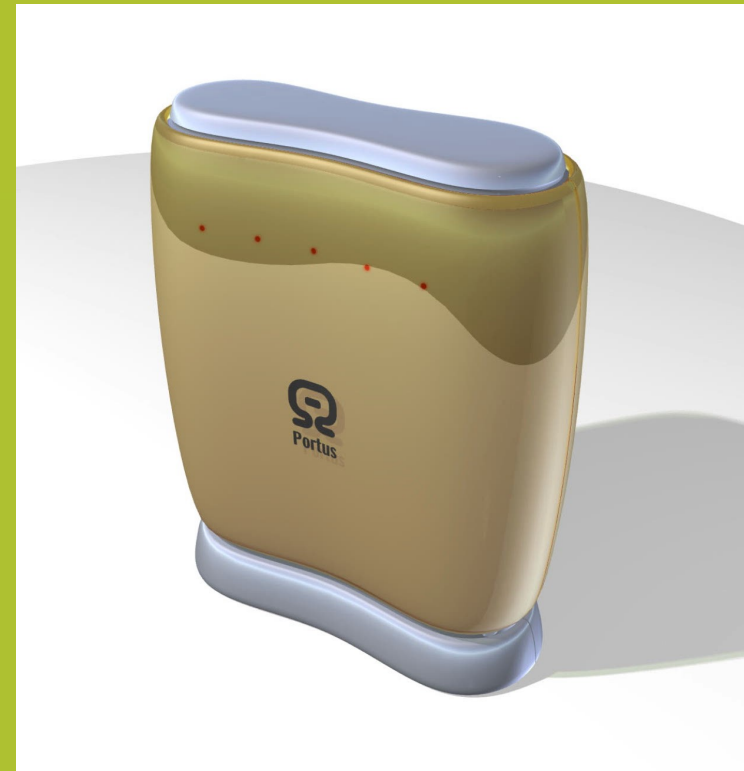

Provides the 3 essential networks for the modern home:

- Wireless LAN
- Bluetooth
- PLC

Secure – acts as firewall

~100% uptime, battery backed for power interruption

Intelligence can offload requirement from other devices eg meters, medical monitoring
